

Special Additional MFIAP Application Round for 2025

The new Distinctions rules, doc 047/2025, that commence at the start of 2026 have a different MFIAP prerequisite to the current regulations. In recognition that this change will apply to the next routine annual application round in 2026, the FIAP Board have decided to make an exception and organise an extra MFIAP application round in 2025 under the current Distinctions rules in document 011/2016. The closing date for this extra application round is the 1st December 2025.

In 2026, the regular annual MFIAP application round will be held as usual. The requirements in the new Distinctions regulations document 047/2025 will apply to this application round. The closing date will be the 1st February 2026.
